Dear Mrs. Llanos,

I see no alternative but to take your friend's letter to the Embassy myself. I will therefore keep this open till I have done so. — The Embassy being some miles both from my office & from my house.

The new edition of Keats is only a large selection, there's nothing new in it whatever.

Send for my cheque in addition for the current quarter's pension with pleasure, and also some certificate forms. I should be glad to have the life certificate as soon as possible after the 5th, because, owing to other occupations with them that I make, my account is rather low.
